

Product list UN approved glass packaging

CarePack Holland BV is specialist in UN approved packaging for transport of dangerous goods. We supply a wide range of UN approved packaging including UN approved glass bottle packaging.

Our UN certified packaging for glass bottles are excellent for shipping a wide range of chemicals. These packaging have been developed especially for transporting 1 and 2.5 litre glass bottles in a safe and easy way. The bottles will be fixed in a rigid holder made of pressed paper with vermiculite. This holder can be placed into the UN-certified fibreboard box with or without a PE-liner. The advantages of pressed paper in comparison with a polystyrene holder are that the holder can absorb the content of 1 bottle, which is required for transporting glass bottles by air, the complete packaging consists of environmental friendly material and the packaging is resistant to corrosives.

Art.No.	Quantity of glass bottles	Outer dimensions in mm.	Gross Kg. 4G/
GL110	1 x 1 litre	165 x 165 x 280	X3
GL605	6 x 0.5 litre	324 x 209 x 243	X10
GL610	6 x 1 litre	400 x 300 x 300	X14 / Y19
GL125	1 x 2.5 litre	200 x 200 x 355	X6
